Printed in Great Britain at the University Printing House, Cambridge

Contents

PART 1—MAY 1971

PAGE

Ultrastructure of the blood vessels in the chick allantois and chorioallantois. By N. SETHI and MURRAY BROOKES 1

Ultrastructure of the mesenchymal layers of the human chorion laeve. By A. D. HOYES 17

Effect of the *T* locus on sperm ultrastructure in the house mouse. By P. J. OLDS 31

The effect of X-rays on enzymes of the mouse testis. By NIRMAL K. KOCHAR and R. G. HARRISON 39

The effects of castration on the ultrastructure and the iodide-concentrating ability of mouse submaxillary salivary glands. By A. W. ROGERS and K. BROWN-GRANT 51

The growth of the ilium in the domestic fowl. By T. J. HARRISON. . . . 63

The position of the human caecum in fetal life. By M. J. T. FITZGERALD, J. P. NOLAN and M. N. O'NEILL 71

The age of appearance of the haustra of the human colon. By J. L. PACE . 75

Neuron size and number in the myenteric plexus of the newborn and adult rat. By G. GABELLA 81

Pituicytes and the regenerative properties of neurosecretory and other axons in the rat. By J. A. KIERNAN 97

Experimental studies on the innervation of the ovary in cats. By G. FINK and G. C. SCHOFIELD 115

The corticospinal tract of the quokka wallaby (*Setonix brachyurus*). By C. R. R. WATSON. 127

Early and late effects of median nerve injury on Meissner's and Pacinian corpuscles of the hand of the macaque (*M. fascicularis*). By W. C. WONG and R. KANAGASUNTHERAM 135

Formation of crystalline ribosomal arrays in cultured chick embryo dorsal root ganglia. By R. L. BIRKS and P. R. WELDON 143

Neuromuscular spindles in human lateral pterygoid muscles. By H. I. GILL . 157

Number of fibres per sheath cell and internodal length in cat cranial nerves. By DEE E. MCFARLAND and REINHARD L. FRIEDE 169

Obituary—C. H. Barnett. By Ruth Bowden. 177

Book Reviews 181

Books Received 185

PART 2—JULY 1971

The distribution and ultrastructure of the Kurloff cell in the guinea-pig. By P. A. Revell, B. Vernon-Roberts and A. Gray 187

Some observations on pelvic lymph nodes of the rabbit during pregnancy. By E. D. Allen and J. M. Mclean 201

The histochemical distribution of fructose metabolism enzymes in bovine spermatogenesis. By M. Micucci, F. Rama, M. A. Castellano and N. I. Germino. With the technical assistance of M. Nesti 209

Implantation of the rabbit blastocyst: the adhesive phase of implantation. By H. W. Steer 215

The distribution of autonomic post-ganglionic nerve fibres to the lacrimal gland in monkeys. By G. L. Ruskell 229

Location and orientation of mitotic figures in the developing mouse olfactory epithelium. By I. H. M. Smart 243

Interhemispheric pathways in the absence of a corpus callosum. An experimental study of commissural connexions in the marsupial phalanger. By C. J. Heath and E. G. Jones 253

One-sided dominance in the limbs of rabbits and frogs, as evidenced by asymmetry in bone weight. By Inderbir Singh 271

Cilia in cell-cultured fibroblasts. II. Incidence in mitotic and post-mitotic BHK 21/C13 fibroblasts. By F. L. Archer and D. N. Wheatley . . 277

The peculiar vasculature of the external spermatic fascia in the rat; possibly subserving thermoregulation. By R. T. Grant and H. Payling Wright 293

The overall pattern of hair follicle arrangement in the rat and mouse. By M. A. F. Hussein 307

Repair of the joint surface from subarticular tissue in the rabbit knee. By G. Meachim and C. Roberts 317

Obituary. J. H. Scott. By J. J. Pritchard 329

Book Reviews 333

Proceedings of the Anatomical Society 337

PART 3—SEPTEMBER 1971

PAGE

Patterns of lymphatic drainage in the adult laboratory rat. By NICHOLAS L. TILNEY 369

Studies on the structure and distribution of immunoglobulin A-containing cells in the gut of the pig. By A. M. ATKINS, G. C. SCHOFIELD and T. REEDERS. 385

The ultrastructure of cartilage canals and the surrounding cartilage in the sheep fetus. By R. A. STOCKWELL 397

The interrelationship of cell density and cartilage thickness in mammalian articular cartilage. By R. A. STOCKWELL 411

On the structure of the epididymal region and ductus deferens of the domestic fowl (*Gallus domesticus*). By M. D. TINGARI 423

The effect of changes in conditions of water balance on the vascular bundles of the rat kidney. By MARGARET CREASEY and D. B. MOFFAT . . . 437

The cellular architecture of the human atrioventricular node, with a note on its morphology in the presence of a left superior vena cava. By R. H. ANDERSON and R. A. LATHAM 443

One-sided dominance in the upper limbs of human fetuses as evidenced by asymmetry in muscle and bone weight. By B. S. PANDE and INDERBIR SINGH 457

The double anastomotic innervation of thenar muscles. By DAN HARNESS and ELIEZER SEKELES 461

Some observations on the fine structure of rat dorsal spinal nerve roots. By JANET M. STEER 467

Chronic Wallerian degeneration – an *in vivo* and ultrastructural study. By P. L. WILLIAMS and SUSAN M. HALL 487

Some additional parametric variations between peripheral nerve fibre populations. By P. L. WILLIAMS and C. P. WENDELL-SMITH 505

Special features of the rabbit cerebroventricular system, studied by the casting method. By I. M. LEVINGER 527

Scanning electron microscopical studies of the embryonic surface during gastrulation and neurulation in *Xenopus laevis*. By D. TARIN . . . 535

Quantitative studies of peripheral blood and bone marrow in transfusion-induced plethoric mice. By ANNE WEITZ-HAMBURGER, JOSEPH LOBUE, SAUL J. SHARKIS, ALBERT S. GORDON and PETER ALEXANDER JR . . . 549
